

CHESTER FC - DIRECT DEBIT SCHEME

Chester FC are introducing direct debit as an additional way of paying for season tickets this year.

This is a cost effective method for the club to accept payments (much cheaper than credit cards) and offers a flexible payment choice for fans.

The prices below show the various season tickets where direct debit can be used.

As all payments must be received before the end of July when Season Tickets are issued, the options are limited to 2 or 3 repayments this year. To take the 3 payment option, customers must be signed up and a direct debit mandate in place by 17th May. After that date, only the 2 payment option will be available. Also we can offer the flexibility of a mid-month or end-of-month payment date (as detailed below). Please indicate your preferred option by ticking the relevant box on the renewal form.
